

WORKING GROUP

LIQUID

OBJECTIVES

This group is mandated to review existing guidelines and propose pre-analytical recommendations related to the biobanking of liquid biomaterials in order to support quality sample and interoperability among biobanks.

A preanalytical data set based on international recommendations and information leaflets to raise awareness of the biobanking pitfalls are under development.

The creation of support desk with a panel of expert is under discussion to help researchers with specific questions related to preanalytics in liquid biospecimen.

LIST OF MEMBERS

Experts = Heads of CH University Hospitals Clinical Chemistry labs

- > Katharina Rentsch – USB Basel
- > Martin Fiedler – Insel Bern
- > Carlo Largiadèr – Insel Bern
- > Vincent Mooser – CHUV Lausanne
- > Nicolas Vuilleumier – HUG Geneva
- > Martin Hersberger – KISPI USZ Zurich
- > Arnold von Eckardstein – USZ Zurich

Operational managers

- > Sandra Mitrovic – USB Basel
- > Tanja Froehlich – Insel Bern
- > Elodie Ristorcelli – CHUV Lausanne
- > Pierre- Alain Binz – CHUV Lausanne
- > Pierre Lescuyer – HUG Geneva

FORMAT

Meeting 2-3x/year, Telco 2x/year and consultation by e-mails whenever necessary.
